TRICORP WORKWEAR PRESENT WITH HAAS F1 SHOWCAR AND HAAS F1 MERCHANDISE

Brussels, 12/01/2024 – Motorsport is one of the topics enthusiastically showcased during the Brussels Auto Show. Various Formula 1 cars will be on display, along with vehicles from events such as Dakar and Le Mans. The latest F1 car you may encounter is the Haas F1 2022 show car representing Mick Schumacher's car. This racing machine is exhibited by our partners at Tricorp Workwear. In addition to producing workwear, they are also the Official Team Kit Supplier for the MoneyGram Haas F1 team.

Tricorp Workwear enables us to showcase the F1 car to the public during the Brussels Auto Show. But that's not all! Tricorp Workwear has come up with a very exciting offer. Merchandise from the past season will be offered at a significantly reduced rate. This includes not only team merchandise but also fanwear. The difference between these two categories? Teamwear is the clothing worn by both the team and the drivers on the circuit. So, think classic polo shirts, jackets, and caps. Fanwear, on the other hand, consists of personal items related to the team's most famous personalities. For example, a T-shirt of the one-time polesitter Kevin Magnussen or the Dutch-speaking Nico Hülkenberg.

Below is the price list:

MoneyGram Haas F1 Team merchandise:

T-shirt from €59.95 to €25
